

# United States Tread Chain Tires

## Experience, the Teacher of Tire Lessons

The experience of your last week-end holiday trip has told you something about the tires you use—

—That they are, or they are not, the particular tires suited to your particular car.

Experience taught the United States Tire Company that all tires are not suited to all cars.

That is why the United States Tire Company makes five different tires—a tire to meet every need of price and use—the only complete line offered by any tire manufacturer.

One of the five is made for your car—will give you the lowest cost per mile.

"Cannon Ball" Baker's transcontinental world's record car was equipped with United States "Balanced" Tires. Baker says: "No other tires would have stood the test."

Ask the nearest United States Tire Dealer for your copy of the booklet, "Judging Tires," which tells how to find the particular tire to suit your needs.

## AFTER SIX YEARS OF SUFFERING

Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio.—"I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 178 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127 pounds so you can see what it has done for me already. My husband says he knows your medicine has saved my life."—Mrs. J. S. Barlow, 1624 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barlow, a chronic invalid, recovered so completely. It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

### Why Paint for Looks Alone?

Many property-owners paint for beauty's sake alone. Wise ones paint to preserve as well. The latter invariably use lead-and-oil paint, the kind that is made of

and pure linseed oil, mixed on the job, by the painter, to exactly meet surface and weather conditions. Paint made this way of these prime materials neither cracks nor scales. It gives the utmost in appearance and protection, at the lowest cost per year.
